

# CERTIFICATE

**Elmas S.L.R.** has been the **Official Country Partner** of Demag Cranes & Components GmbH in Romania for more than 25 years. In addition, the company represents us with further subsidiaries in Bulgaria and Hungary.

Elmas is the Official Partner for Demag brand industrial cranes and components in this region.

Elmas manufactures crane systems at its production facility in Brasov at the highest level according to Demag specifications and quality requirements. With its design, sales, installation and services areas, Elmas offers a complete package of premium products and services.

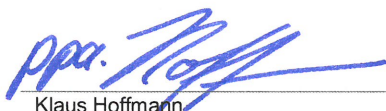

Elmas uses its eleven sales and service locations as well as its Demag trained engineers and service specialists to ensure comprehensive on-site support and rapid availability of Demag components and spare parts.

With more than 25 years of expertise in the lifting and materials handling industry, Elmas is the leading supplier of customized solutions for Demag products in Romania, Bulgaria and Hungary.

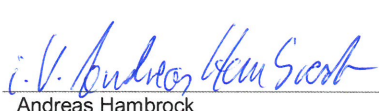

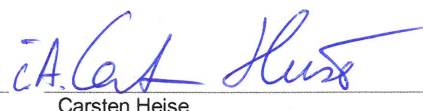

**Demag Cranes & Components GmbH** and **Konecranes Plc.**, which has been its parent company since the acquisition in January 2017, are proud of the extremely successful business relationship with Elmas and look forward to continuing our long-standing partnership.
