Gabriel Muntean, Chief Executive Officer in cadrul firmei, precizeaza ca, pe termen scurt si mediu, vor continua investitiile in producția de geam termoizolant si a tamplariei din aluminiu. Astfel, au fost realizate deja demersurile necesare pentru achizitia utilajelor destinate cresterii calitatii producției geamului termoizolant cu bagheta de tip Swissspacer Ultimate (cel mai performant distantier termic din lume) si care va fi disponibil in portofoliul firmei intr-o varietate de culori. De asemenea, cresterea capacitatii de producție pentru tamplarie din aluminiu va facilita, in continuare, dezvoltarea structurii actuale a afacerii, precum si extinderea distributiei interne si internationale. In prezent, compania detine deja o unitate de producție ultramoderna, prevazuta cu echipamente Rotox, Sturtz si Schirmer, iar in continuare intioneeaza sa investeasca in mod continuu in calitatea produselor sale si sa isi consolideze notorietatea prin comercializarea de tamplarie din categoria premium si prestarea unor servicii de inalta calitate. Managerul firmei mai precizeaza ca partenerii si clientii au fost obisnuiti de-a lungul timpului cu servicii de calitate si solutii profesioniste, iar aprecierea lor reprezinta principala motivatie de a continua activitatea cu dedicare.
